## Microphone and Monitor arm positions

AKA's range of Podcast desks boasts a central cable management and mic arm mounting system tailored to seamlessly integrate with various mic arm setups. This system is specifically designed to accommodate:

### 1. Yellowtec Mic Arm System

The desk includes fittings for 22mm bushings, which are compatible with the entire range of Yellowtec boom arms. This allows for secure and stable attachment of these arms.

### 2. Yellowtec MMS Pole System

A central 12.5mm hole is provided to support the Yellowtec MMS pole system. This hole allows for the mounting of TV mic arms, monitor arms, and pads, providing versatility and ensuring that the setup remains neat and organized.

### 3. Desk Clamp Mic Arm Compatibility

The desk features apertures designed to accommodate any arm mounted on a desk clamp, such as the Rode arm. This universal design ensures that users are not limited to a specific brand and can utilise a variety of equipment based on their needs.

Overall, our podcast range of desks are designed for flexibility and ease of use, making these an ideal choice for professional settings that require efficient cable management and robust support for various mic and monitor arm systems.
